Diseases, Insects, & Invasive Species
of the Urban Forest

CEUs for ISA & NALP will be available.

OCTOBER 3, 2019

Waukesha location to be determined

Extension
UNIVERSITY OF WISCONSIN-MADISON

Instructors

Brian Hudelson, Director, UW-Madison Plant Disease Diagnostic Clinic (PDDC)

Brian is affectionately known as “Dr. Death” because of his love of plant diseases. He received his BS in Botany, Bacteriology and Molecular Biology, MS in Biometry and PhD in Plant Pathology from UW-Madison and became director of the PDDC in 1998.

Patrick (PJ) Liesch, Director, UW-Madison Insect Diagnostic Lab (IDL)

PJ received his BS in biological sciences from UW-Parkside and MS in entomology from UW-Madison. PJ & the IDL provide arthropod identification services for Extension colleagues, the general public, agricultural producers, private industry, governmental agencies, and other groups in Wisconsin. PJ also provides entomology-related outreach throughout the state.

Mark Renz, Extension Weed Specialist, UW-Madison Renz Lab

Mark received his BS and PhD from University of California Davis studying weed biology and management in cropped and natural areas. In 2006 Mark moved to Wisconsin to an extension specialist position at the University of Wisconsin Madison where he focuses on weed management in perennial agro-nomic crops and on invasive plants in natural areas.

Anne Pearce, Outreach Specialist, UW-Madison Renz Lab

Anne received her BS in soil science and biology and MS in water resource management from UW-Madison. She coordinates Wisconsin First Detector Network (WIFDN), provides training and support for Great Lakes Early Detection Network (GLEDN) app and ISMTrack software. She also facilitates invasive species I.D., monitoring, and management workshops for landowners, volunteers, and professionals across Wisconsin.

Program Information
